Awarded the Red Dot Award 2024-25

The **Only Indian Brand** to Receive Three Red Dot Awards in a Year

GM has created history with a hat-trick of prestigious Red Dot Design Awards. The Red Dot Award represents excellence in design and innovation. The esteemed honour has been bestowed upon us for the Best Product Design as well as Design Concept for two premium ranges of products, which have been designed to revolutionise the way we interact with our spaces and make everyday living simpler as well as convenient. The brilliant and remarkable designs symbolise the values of commitment to technological innovation and meticulous craftsmanship. This achievement is a testament to the collective efforts of talented teams at GM and a promise to set newer benchmarks in the design and innovation industry.

Crafted for **superior** performance

With proper research in design and material, GM Fans have grown with a design aesthetic of clean lines, correct proportions, and a less-is-more philosophy. We use crisp, precise metalwork by artisans with tremendous experience in the industry. Some of the products pass through rigorous tests at the hands of metal craftsmen and finishers before they are presented to our customers.

What is BEE?

BEE (Bureau of Energy Efficiency) rating agency affiliated to the government of India have revamped its Star Rating system for ceiling fans with reference to IS 374:2019 standard.

Traditional fans typically use a single phase induction motor and are constructed with copper / aluminium, leading to lower energy efficiency. As a result, most conventional fans consume roughly 70-80 watts of electricity and have air delivery rates of 210 to 250 m³/min.

The Bureau of Energy Efficiency (BEE) requires manufacturers of fans to have their models tested and certified with star ratings, allowing consumers to easily determine the energy efficiency of a particular fan model.

The BEE Star Rating system rates appliances on a 5-point scale based on their energy efficiency. A higher rating indicates that the appliance uses less electricity. The scale ranges from 1 star, being the least efficient to 5 stars, being the most efficient.

Ceiling Fan Star Rating table is applicable upto 31st December, 2025.

Sweep Size <1200 mm

for blade sweep of 900 mm to 1050 mm

Star Rating	Service Value
 1-star	≥ 3.6 to < 4.1
 2-star	≥ 3.6 to < 4.1
 3-star	≥ 4.1 to < 4.6
 4-star	≥ 4.6 to < 5.1
 5-star	≥ 5.1

Sweep Size ≥1200 mm

for blade sweep of 1200 mm, 1400 mm and 1500 mm

Star Rating	Service Value
 1-star	≥ 4.0 to < 4.5 for 1200 mm ≥ 4.1 to < 4.5 for 1400 mm ≥ 4.3 to < 4.5 for 1500 mm
 2-star	≥ 4.5 to < 5.0
 3-star	≥ 5.0 to < 5.5
 4-star	≥ 5.5 to < 6.0
 5-star	≥ 6.0

New Ceiling Fan Star Rating table w.e.f. 1st January, 2026.

Sweep Size <900 mm

for blade sweep of 600 mm to 750 mm

Star Rating	Service Value
 1-star	≥ 2.0 to < 2.5
 2-star	≥ 2.5 to < 3.0
 3-star	≥ 3.0 to < 3.5
 4-star	≥ 3.5 to < 4.0
 5-star	≥ 4.0

Sweep Size ≥900 mm to <1200 mm

for blade sweep of 900 mm to 1050 mm

Star Rating	Service Value
 1-star	≥ 3.6 to < 4.1
 2-star	≥ 4.1 to < 4.6
 3-star	≥ 4.6 to < 5.1
 4-star	≥ 5.1 to < 5.6
 5-star	≥ 5.6

Sweep Size ≥1200 mm

for blade sweep of 1200 mm to 1500 mm

Star Rating	Service Value
 1-star	≥ 4.5 to < 5.0
 2-star	≥ 5.0 to < 5.5
 3-star	≥ 5.5 to < 6.0
 4-star	≥ 6.0 to < 6.5
 5-star	≥ 6.5

Super Efficient BLDC Fans

Brushless Direct-Current (BLDC) motor uses a permanent magnet instead of the electromagnets found in traditional induction motors. In recent years, BLDC technology has been developed to reduce energy consumption in fans without significantly decreasing air delivery.

ADVANTAGES OF BLDC MOTOR FAN

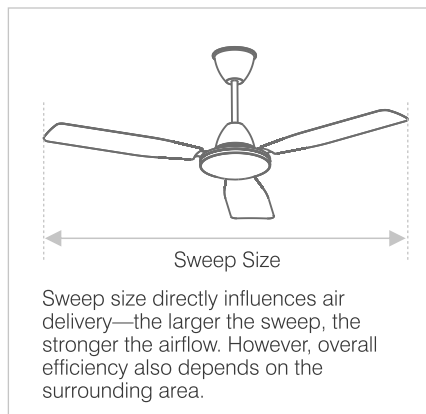

- ★ Lower electricity consumption (65% savings)
- ★ Longer backup on inverters (even on Solar)
- ★ Improved reliability
- ★ Noise reduction
- ★ Longer lifetime

BLDC fans start with the pricing of around ₹ 3,000/- while ordinary fans are roughly priced around ₹ 1,500/-. So, in short, if you run your fans for more than 15 hours daily and per unit electricity cost exceeds ₹6/- you can expect to recover the complete cost of the fan in less than 2 years in the form of energy savings with BLDC fans.

Selecting the Perfect Ceiling Fan

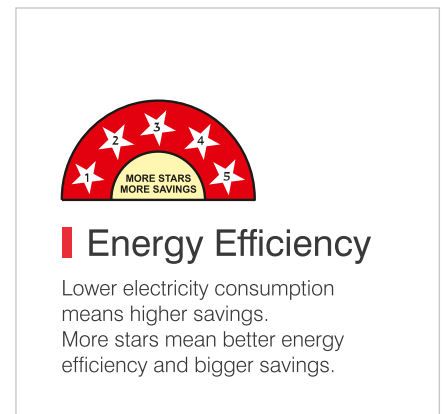

Visit our website www.gmm modular.com or go to any nearest GM Showroom, or a local shop dealing in GM Fans.

- Scroll through our products and their features online, or read through our catalogue.
- Have a proper understanding of your requirement and choose a GM Fan as per your need.
- Choose from the categories namely ceiling, ventilation & exhaust, pedestal, wall, table, personal and industrial fans.
- Our feature categories range from exquisite design, added extra copper, anti-dust fans, high-speed fans, BLDC motor technology, point anywhere RF remote technology, sleek IR remotes, 50% savings on electricity costs, high air delivery, wide voltage range, thermal overload protectors, low-noise fans, rustproof body, 360° oscillation to energy efficient motor and much more.
- Note that all GM Fans are functionally modern and visually appealing to suit all interiors perfectly.
- GM Fans come in various shapes, sizes, colours and designs to match your unique preferences.
- AirMate and Zephyr are our award winning pedestal fans, and you can select them without thinking twice!

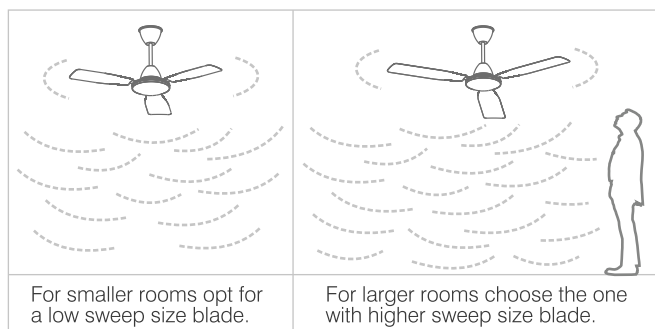

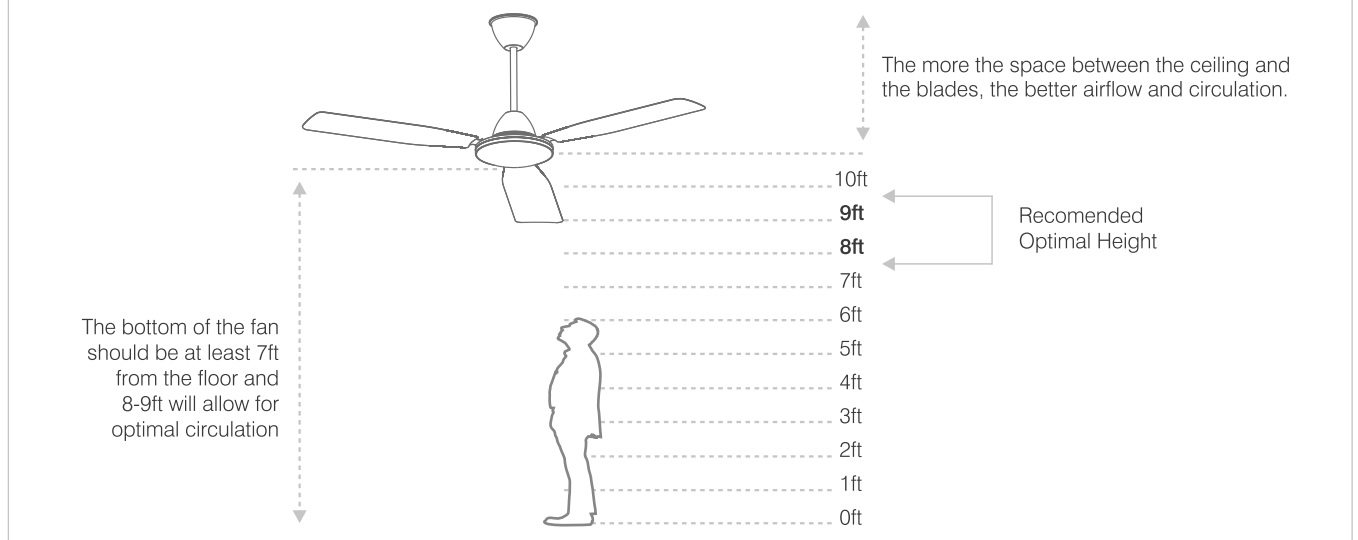

Speed (RPM)	Air Delivery (CMM)
315	240 ✓

Higher RPM does not mean higher airflow. Airflow/air delivery is the only point of comparison in selecting a ceiling fan.

Optimal Ceiling Height

Use ceiling fans for rooms with tall ceilings, and choose personal or wall fans, for rooms with low height ceilings.

Sweep Size	Room Size
600mm (24")	Small Shop, Cabin, Kitchen, Powder Room
750mm (30")	06 x 10ft
900mm (36")	07 x 10ft
1050mm (42")	10 x 10ft
1200mm (48")	12 x 13ft
1300mm (52")	13 x 14ft
1400mm (56")	14 x 15ft

**Committed
to give you the
best.**

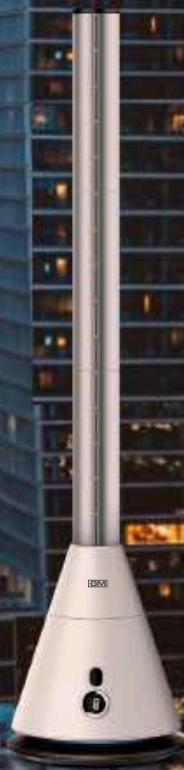

As a part of GM, I assure you of its quality and dedication to make lives better. The latest range of fans can enhance your life in meaningful ways. Consider GM's innovations not just as electrical accessories, but as a step toward a more refined and luxurious lifestyle.

TECHNICAL SPECIFICATIONS

HEAVY-DUTY AIR CIRCULATOR FANS

A robust and heavy-duty oscillating type propeller fan comprises aerodynamically designed blades (three), aluminium pressure die cast impeller, sturdy close-mesh guard and energy efficient motor. It also has an epoxy powder coated finish for better durability.

APPLICATIONS:

- Airports
- Bus depots
- Factories
- Offices
- Theatres
- Pandal decorations
- Heat treatment shops
- Auditoriums
- Conference Halls
- Shops
- Restaurants
- Public Places
- Railway Stations

POWER SUPPLY:

Standard: 220/240 V, single phase 50 Hz
380/440 V, three phase 50 Hz
Optional: 110 V/60 Hz, 230 V/60 Hz

SPECIFICATIONS:

Fan Sweep:
450 mm (18"), 600 mm (24")
750 mm (30") and 900 mm (36")

Fan Motor:
4 Pole (standard) 6 pole (optional),
1 Phase cap start & run or
3 Phase induction motor

FEATURES

- Aerodynamically designed blades for higher air delivery and lesser noise
- Well-balanced blades
- Pedestal fan with adjustable height
- Up to 3600 indexing
- Totally flexible with up to 85° oscillation
- Sturdy powder coated guards with brazed wire
- Robust base for absolute stability
- Low power consumption
- Conforming to IS: 2997-1964
- IEC approved product
- Motor design to efficiently work at lower voltage

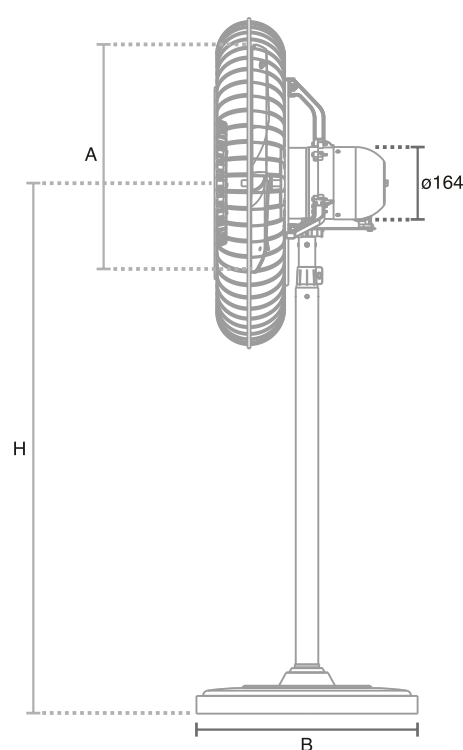

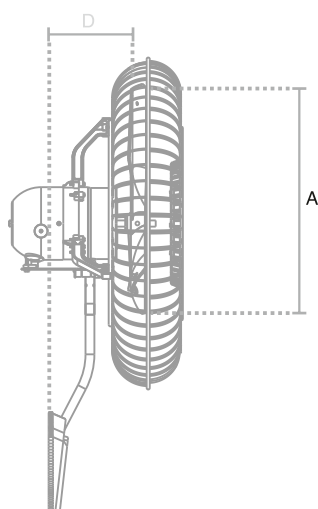

FINISH:

Standard: Epoxy powder coating in metallic shades
Option: Optional colour available
Bearings: 6202 ZZ (V3C3) ball bearing

A classic standout

Due to its five-star rating, the new GM ORO PLUS Storage Water Heater in metal body stands out in the classic range. It has a temperature setting knob and an indicator to allow you to adjust the temperature to your liking. It is simple to set up and easy to use. In addition, the water heater saves 50% more energy and is leakproof.

A convenient and reliable hot water solution

The Zesty Tankless Water Heater is designed to meet the demands of modern, fast-paced lifestyles by providing instant hot water without any wait time. Eliminating the need for a large storage tank, it supplies hot water to multiple locations simultaneously, thus saving space and energy. For added convenience and safety, the water heater features an automatic safety check system and user-friendly feather touch buttons, ensuring reliable operation and effortless control.

Bringing you the best of innovations

We believe in exploring ideas that truly enlighten us and transform lives. With every new idea, we bring you an amazing range of products to choose from that simplify lives and enhance your experience of owning great gadgets and appliances.

The all-new G+ Series of mobile accessories has been designed keeping in mind the needs and wishes of a modern individual, who multitasks, loves speed, and appreciates quality along with efficiency. The G+ Series' products are meant to be your perfect companion on-the-go.

Upgrading the Basics

Everyone enjoys personalising items to their choices and requirements. And the good news is, technology can now be tailored to your preferences. The GM Power Tracks allow manual installation of a variety of electrical components, which simplify daily operations. The power tracks can be efficiently installed on long tables at homes or offices or even on the walls, making them appropriate for both residential and commercial sectors. They facilitate work and astound with their simple yet intelligent design.
